Wheat Unsettled, Prices Finally Falling a Trifle Below Those of Saturday.

A Good Business in Corn, the Closing Prices Showing a Slight Decline-Dats Lower-Increased Strength in Provisions.

MONEY, BONDS AND STOCKS.

A Dull Opening at New York, Followed by Activity and a Strong Closing. NEW YORK, Aug. 6 .- Money on call was easy at 1@14 per cent.

Prime mercantile paper, 41 @61 per cent. Sterling exchange was dull but steady at \$4.85 for sixty-day bills, and \$4.87 for demand.

The total sales of stocks to-day were 198,024 shares, including the following: Delaware, Lackawanna & Western, 33,060; Lake Shore, 13,430; Missonri Pacific, 5,870; Northwestern, 5,310; Northern Pacific, preferred, 3,714; Oregon Transcontinental, 4,310; Pacific Mail, 4,028; Reading. 40,700; St. Paul, 13,270; Union Pacific, 8,360; Western Union, 16,635; Wheeling & Lake Erie, preferred, 3,000.

The stock market was very dull during the forenoon to-day, but became active later in the day, while a firm to strong tone marked the ransactions throughout the entire session. This being a holiday in London, there was a general expectation that the business here would be very limited, and during the first two hours of business these expectations were realized though the strong tone manifested by the very limited dealings was somewhat of a surprise to the street. Commission people, however, later seemed better supplied with buying orders than usual for some time, and the scarcity of stocks on the street had made the offerings unusually small, which soon started an advance in the list. which caused the early sellers to become buyers later in the day. The improvement was specially noticeable in the coalers, the Vanderbilts, the Gould stocks and St. Paul, with a few of the specialties. The unusual demand for anthracite in view of the expected advance in rates stimulated the coal stocks, and Lackawanna became the leader of the market, with Reading close behind, but the impetus to the general list was the favorable crop reports, with the starp demand for wheat for export. The Gould stocks were more prominent than usual of late, and this gave rise to the belief in some quarters that Mr. Gould was a liberal purchaser, as well the renewal of the old story of a syndicate to purchase his holdings of Western Union, the latter stock being again very prominent in the dealings. The opening sales were made at only slight changes from Saturday's closing figures, but the list developed strength immediately, and Western Union, St. Paul and Cotton Oil took the lead in the advance. The improvement, however, was confined to fractional amounts only, while the market then reacted slightly and became dull. There was more animation noticeable soon after 12 o'clock, and Lackawanna then assumed the lead in the advance, and, followed by Dela-ware & Hudson and Missouri Pacific, advanced If per cent. The activity died away toward delivery hour, and the advance had less force, but the close, while quiet, was strong at about the best figures reached.

Railroad bonds were extremely dall and featureless to-day, and though there was a firm tone to the dealings throughout the entire day, the final changes in quotations are generally confined to small fractions, and no feature whatever was shown at any time. The sales of all issues aggregated only \$746,000, and this amount was very evenly divided among a small number of issues. A few bonds made important gains, however, and Minneapolis & St. Louis firsts

CHICAGO, Aug. 6.—The wheat market was unsettled to-day, with higher prices early, followed by a decline, which, however, only sent prices a fraction below Saturday's figures. The crowd was bullish on the whole, and fought the decline. Two or three things tended to increase the number of sellers. The primary receipts were liberal, over 700,000 bu at 10 points, while export clearances were small, only 38,000 bu wheat, and but 62,000 bu wheat and flour from Atlantic ports. This was very discouraging after the reports of the liberal taking for export. Wheat continued to grow stronger toward the close, and at 1 P. M. September closed at 84 se, ic under the best point for the day, and se over the close on Saturday. This was encouraging to the "bulls," who feared that the market was going to smash early. There was a good volume of trading in corn early, and prices not only opened fractionally higher, but there was a slight advance, in sympathy with everything else on the floor. About Il A. M. there was a break of nearly 1c, caused by the estimate of 660 cars for to-morrow, and by the pounding in wheat A raily of to still later left the price of September at the close only to under Saturday, at 45 c. An unsettled feeling developed in provisions. A fair volume of business was transacted, the bulk being local. September pork broke from \$14.45 to \$14 25, but reacted and closed at the same price as Saturday, \$14.30 @14.324. Lard developed more strength, the trading at times being large. September sold at 8.85 @ 8.92 c. and closed there, the net advance being .07 a. 12 c. Short ribs closed .05c higher, at 8 37 c. New oats were in fair demand for shipment, but prices ruled weak and + @le lower under larger offerings. Old oats were in moderate demand and

INDIANAPOLIS MARKETS.

Trade Moving Along on a Purely Legitimate Basis and Healthy in Volume.

INDIANAPOLIS, Aug. 6. Inquiry in the various branches of trade shows that business is healthy in volume and that the tendency to speculation is of very small proportions. Grocers report trade active to-day and a firm tone to prices. The New York Bulletin of Aug. 3 says: "Promising conditions are noticeable for pretty much the entire line of staple groceries again, and the improving tendency before advised makes further progress. The South and Southwest has contributed considerable to the demand of late and the two sections will furnish still fuller custom, while from the West, and especially the large cities, there has been received some very good orders and plenty of inquiries to in dicate that wants are growing. Probably the most satisfactory development is in coffee. of which, both green and rossted, the sale is increasing, but the chances for sugar are still excellent, and molasses, teas, spices, rice, etc. may all expect due share of attention. There is more or less backing and filling on first-hand negotiations, but ail tending to show a growing tendency to business and on a purely legitimate basis the situation is cheerful." Dry goods men report trade fair and prices strong all along the line. In the produce markets there is a good deal of activity, and prices range about the same as last week, except that poultry is higher. Eggs steady and butter firm at our quotations. Nutmeg melons in large supply and prices weak; selling from 60 cents to \$1.25 per barrel. Tomatoes sell at 40 cents per bushel. Apples, really choice fruit, sold at \$1.50 to \$1.75 per barrel.

There was rather a small attendance on 'Change to-day, and bidding was not as spirited

as on Saturday. Prices, however, varied but little from Saturday's range, track bids ruling as Wheat-No. 2 red.....
